

20FT High Cube Steel Floor Container

LEN-P-000675

This 20FT high cube unit is offered in new or one-trip condition and is floored throughout with fully welded steel. Where plywood would degrade or buckle, the welded deck takes dense, impact-heavy loads and raises the practical payload tolerance of the box.

INTERNAL DIMENSIONS

APPLICATION & FIT

Storage, freight handling or the stated container application

Selection checks: Check cargo dimensions against internal size and door opening.; Prepare level supports and adequate delivery and handling space.; Review the stated condition, floor, doors and any specialist equipment..

Does the nominal container length describe usable space?

Nominal length identifies the container format. Internal dimensions and door opening are the relevant checks for cargo fit; use the listed values or request the unit drawing.

Can the unit be used for international freight?

Storage suitability and shipping acceptance are different checks. Where freight service is required, verify the unit identification, condition and applicable inspection documentation.

How are delivery and after-sales terms confirmed?

Delivery charges, availability, return conditions and warranty coverage follow the current company policies and the confirmed order. Use the product reference when contacting the sales desk.
