DETAIL	PUBLISHED SPECIFICATION
Max gross weight	24,000 kg
Stackable	yes
Forklift pockets	integrated, reinforced
Full-length side access.	The hinged side doors run nearly the whole length of the box, so oversized materials, long goods and mixed cargo configurations all load from the side.
High cube design.	Internal height of 2.607 m, approximately 8'6", giving increased volume over standard 20ft units.
CORTEN steel build.	Rust-resistant weathering steel, holding exterior condition over the long term in harsh environments and climates.
Marine-grade plywood flooring.	28mm hardwood floor. Moisture resistant, and rated for heavy-duty palletized loads or equipment staging.
Forklift handling ready.	Reinforced forklift pockets match standard yard and on-site maneuvering equipment.
Locking and ventilation.	Industrial-grade lock rods on both rear and side doors, an integrated lockbox, and standard air vents for condensation control.
Finish.	RAL5013 Cobalt Blue by default, with other RAL colors available on request.

APPLICATION & FIT

Storage, freight handling or the stated container application

Selection checks: Check cargo dimensions against internal size and door opening.; Prepare level supports and adequate delivery and handling space.; Review the stated condition, floor, doors and any specialist equipment..

Does the nominal container length describe usable space?

Nominal length identifies the container format. Internal dimensions and door opening are the relevant checks for cargo fit; use the listed values or request the unit drawing.

Can the unit be used for international freight?

Storage suitability and shipping acceptance are different checks. Where freight service is required, verify the unit identification, condition and applicable inspection documentation.

How are delivery and after-sales terms confirmed?

Delivery charges, availability, return conditions and warranty coverage follow the current company policies and the confirmed order. Use the product reference when contacting the sales desk.
