A CLOSER LOOK

APPLICATION & FIT

Access to raised cabins and modular buildings

Selection checks: Match landing height, tread count and the cabin connection.; Check stair width, handrails, fixing points and the prepared base.; Use the dimensional drawing for the selected variant before installation..

Which size should I select?

Select the tread count and landing height for the exact installation. The dimensional drawing and fixing arrangement should match the cabin and site.

Is this a complete installed access system?

The product listing describes the staircase assembly. Confirm foundations, delivery, lifting and installation responsibilities before ordering.

How are delivery and after-sales terms confirmed?

Delivery charges, availability, return conditions and warranty coverage follow the current company policies and the confirmed order. Use the product reference when contacting the sales desk.
