

FENCE SEMI-TRAILERS

3-Axle High-Side Fence Semi-Trailer for Bulk Cargo

LNV-TRL-011

3-Axle High-Side Fence Semi-Trailer for Bulk Cargo is intended for agricultural freight, bagged cargo and adaptable general haulage. An open-sided fence body provides ventilation and access while defining the load space.

Kingpin	90# JOST
Brake Valve	WABCO
Suspension	Mechanical suspension

A CLOSER LOOK

APPLICATION & FIT

Agricultural freight, bagged cargo and adaptable general haulage

Selection checks: Cargo dimensions and containment; Fence height and removable sections; Usable deck area; Restraint points and covers; Access for loading equipment.

What configuration does this listing describe?

The technical table reproduces the manufacturer-listed equipment for this model. Where alternative components or sizes are listed, the order specification must identify the selected option.

How should I assess the working load?

The manufacturer lists 60000KG. Match the actual load to the documented trailer rating, axle and tire limits, tractor capability and route requirements. A supplier capacity figure alone does not establish the permitted road payload.

What information is needed to select the right version?

Provide cargo dimensions and containment, fence height and removable sections, usable deck area, together with the delivery ZIP code and the intended operating route. This allows the configuration and delivery plan to be checked against the job.

What is included with delivery?

The confirmed order identifies the trailer specification, supplied accessories and delivery scope. Delivery charges and eligibility follow the company shipping policy; do not assume an optional pump, compressor, hydraulic kit or other accessory is included unless specified.

What should I check for US use?

Verify the model-specific identification and certification documents, import eligibility and registration requirements before ordering for US road use. Published supplier specifications do not establish US approval.
