

CURTAIN SIDE TRAILERS

4-Axle Curtain Side Trailer

LNV-TRL-047

4-Axle Curtain Side Trailer is intended for side-access distribution and palletized freight. Sliding curtains provide flexible side access while the trailer retains an enclosed freight format.

PRODUCT NAME

4-Axle Curtain Side Trailer

PAYLOAD

40000kg

SIDE

made of reinforced PVC curtains

APPLICATION & FIT

Side-access distribution and palletized freight

Selection checks: Side and rear access clearance; Internal dimensions and pallet plan; Roof, post and curtain arrangement; Restraint fittings and ratings; Dock and forklift loading requirements.

What configuration does this listing describe?

The technical table reproduces the manufacturer-listed equipment for this model. Where alternative components or sizes are listed, the order specification must identify the selected option.

How should I assess the working load?

The manufacturer lists 40000kg. Match the actual load to the documented trailer rating, axle and tire limits, tractor capability and route requirements. A supplier capacity figure alone does not establish the permitted road payload.

What information is needed to select the right version?

Provide side and rear access clearance, internal dimensions and pallet plan, roof, post and curtain arrangement, together with the delivery ZIP code and the intended operating route. This allows the configuration and delivery plan to be checked against the job.

What is included with delivery?

The confirmed order identifies the trailer specification, supplied accessories and delivery scope. Delivery charges and eligibility follow the company shipping policy; do not assume an optional pump, compressor, hydraulic kit or other accessory is included unless specified.

What should I check for US use?

Verify the model-specific identification and certification documents, import eligibility and registration requirements before ordering for US road use. Published supplier specifications do not establish US approval.
